**PUBLIC NOTICE OF SURFACE MINING
APPLICATION PERMIT TRANSFER**

Double Eagle Aggregates, L.L.C., 10920 Lawrence 2050, Miller, MO 65707, has applied to accept transfer of Ottendorf Aggregates, Inc., 5804 State Hwy. K, Billings, MO 65610, Permit #0772 with the Department of Natural Resources, Land Reclamation Commission, to continue to mine limestone on 80 acres of land located in Webster County, Sections 1 & 2, Township 28 N, Range 18 W. This operation will be conducted during the approximate dates of 1-20-2004 to 12-31-2054.

Written comments or a request for a hearing and/or an informal public meeting may be made by any person with a direct, personal interest in one or more of the factors that the Missouri Land Reclamation Commission may consider in issuing a permit. As required by The Land Reclamation Act, sections 444.760 to 444.790, RSMo, any person whose health, safety or livelihood will be unduly impaired by the issuance of a permit, in relation to such items as permitting and reclamation requirements, erosion and siltation control, excavations posing a threat to public safety, or protection of public road rights-of-way may request a hearing, public meeting or submit written comments. If a hearing is requested, the Commission shall also consider if the applicant or any associated persons or corporations in Missouri has demonstrated that during five (5) years immediately preceding the date of the permit application that a pattern of noncompliance with any environmental protection laws and regulations administered by the Missouri Department of Natural Resources at other locations in Missouri suggests, based upon competent and substantial scientific evidence on the record that a reasonable likelihood of future noncompliances may occur. Such noncompliances must have been at any one single facility and resulted in harm to the environments or impaired the health, safety or livelihood of persons outside of the facility. For any permit seeker that has not been in business in Missouri for the past five (5) years, the Commission may review the record of noncompliance from any state where the applicant has conducted business during the past five (5) years.

Send written comments, a request for a hearing and/or a public meeting to: Staff Director Land Reclamation Program, Department of Natural Resources, P.O. Box 176, Jefferson City, MO 65102-09176.

All comments and requests for hearings and/or public meetings must be submitted in writing to the Staff Director's office no later than fifteen (15) days following the final public notice publication date.
